

Still managing your print environment?

Maybe it's time to focus on higher value tasks while we manage your printers for you.

Today's hybrid workforce, employee turnover and recent cyber attacks on networked printers has increased the complexity of managing your print environment.

Can you relate?

Common PRINT CHALLENGES

- Uncontrolled Printing
- Low-Cost Visibility
- Reactive Toner Ordering
- Multiple Vendors/Invoices
- IT Distractions
- Data Security Risks
- No Cartridge Recycling

Managed PRINT SOLUTIONS

- User Restrictions
- Expense Visibility & Control
- Proactive Replenishment
- One Vendor / One Invoice
- Helpdesk & On-Site Service
- Risk Mitigation
- Waste Reduction

There's a better way to manage your print environment.

Why Managed Print Services?

Smart business leaders are outsourcing non-critical functions like toner ordering, printer repairs and tracking how much your people are printing.

41% of print related expenses typically avoid formal approval.
- HP

90% of businesses have no formal print strategy.
- Office Tech Insider

27% of help desk calls are print related.
- NPR

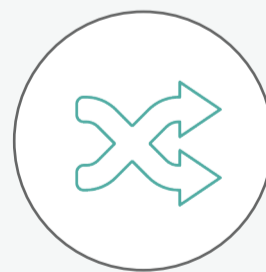

Managed Print Highlights

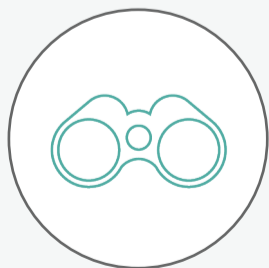

Remote Monitoring
Know when your printers need toner or service.

Supply Management
Avoid last-minute orders and overstocking supplies.

Supply Routing
We ship the right toner to the right location, at the right time.

Service Monitoring
Your printers communicate with us to identify proactive service opportunities.

Help Desk & Break/Fix Service
Keep your high value IT people focused on bigger priorities, while we manage your printers.

Quarterly Business Reviews
Together we'll review program performance and new opportunities to improve.

Focus on what you do best while we manage your print environment for you.

About our Managed Print Partners
footPRINT specializes in print management for companies of all sizes to gain control of that last unmanaged cost centre in their organization: document output costs. Recognized as having the most advanced and flexible MPS programs in North America, footPRINT has the ability to provide a selection of services tailored to the requirements of each customer.
